Europe’s largest osteopathy conference with more than 60 workshops and 24 speakers

Unlocking the cranial mechanism ... modern insights

November, 15th-17th 2019 in Berlin
Dear friends of osteopathy,

we, the Osteopathie Schule Deutschland, invite you to Europe’s biggest osteopathy conference in the heart of Berlin from 15th to 17th November 2019.

For a whole weekend leading osteopaths and scientists from all over the globe will shine a light on the latest insights and findings in science and osteopathic practice in the world of Cranial Osteopathy.

Time changes everything. For this reason, this conference isn’t just about exploring and applying little known cranial approaches of the early osteopaths. But we should also allow ourselves to adjust our views and actions to the challenges of modern time by modifying our practice for the welfare of the patient and to invite other perspectives as well as integrating new approaches into our work.
“It is the clinical experience of utilizing this stillness, this total energy, this total body, this total force, in the concept of the treatment program... You experience the stillness with its motivating energy, centering the total body... When I sense this interchange taking place through my hands as a palpable mechanism and through my mind as an awareness of the stillness interchanging with body physiology, then the treatment is complete.” (R. E. Becker)

The focus of the practical workshops will be to see, feel and experience through different perspectives how patience, insight and gentle mindfulness reveal homeostatic dynamics. We will listen to these processes, let them happen and support them. The workshops also show many new approaches and deepened models as well as scientific and neuroanatomical discourses.

Special events and plenty of occasions will give you the chance to exchange experiences and knowledge with your colleagues and to expand your professional network. Of course the traditional Gala-Dinner with our following, by now notorious, Meeting-Friends-Party won’t be missing! Here you’ll get a very dynamic opportunity to relax and celebrate together.

We are looking forward to welcome you at our conference.

Your
Osteopathie Schule Deutschland
Conference Program

Friday, 15.11.2019  Morning lectures: 08:00 - 13:30

08:00 - 08:15  Welcome

08:15 - 08:45  Prof. Guillaume Captier MD, PhD (FRA)
Models of positional skull deformation. It’s not only an environmental disease

08:45 - 09:15  Prof. Joan Richtsmeier PhD (USA)
Integration of brain and skull

09:15 - 09:45  Ass. Prof. Emiliano Bruner PhD (ESP)
Functional Craniology and Brain Evolution

09:45 - 10:00  Event

10:00 - 10:30  Kenneth Lossing DO, FAAO (USA)
Beryl Arbuckle’s osteopathic considerations

10:30 - 11:00  Coffee Break

11:00 - 11:30  Paula Eschtruth DO, FCA (USA)
Dr. Fulford’s Life and Philosophy

11:30 - 12:00  Margaret Sorrel DO, FCA (USA)
Charlotte Weaver, Pioneer in Cranial Osteopathy

12:00 - 12:30  Nicholas Woodhead DO (GBR)
Rollin Becker’s Approach

12:30 - 13:00  Alain Auberville DO (FRA)
Motility in Ostéopathy

13:00 - 13:30  Richard Holding DO (GBR)
Rollin Beckers spiritual fulcrum

13:30 - 15:00  Lunch Break

N09  Prof. Joan Richtsmeier PhD (USA)
Interaction of brain, chondrocranium and dermatocranium in
development and disease

N10  Tajinder Deoora MSc., DO, Dip phyt (GBR)
Perceptive quality of tissues: reading the health with our hands

N11  Prof. Frank Willard PhD, DO (Hons) (USA)
Cranial nerves VII - XII

N12  Edward G. Stiles MD, DO (USA)
Functional sutural approach from George Laughlin, Still’s grandson

N13  Alain Abehsera DO, MD (FRA)
Recent advances in the physiology of the PRM and the meninges:
Applications and implications

N14  Nicholas Woodhead DO (GBR)
Becker’s approach to Fluids

N15  Richard Holding DO (GBR)
Rollin Becker’s spiritual fulcrum - clinical application
Conference fees:

3-day-ticket: 598,- €
Early bird fee (Registration until 31.03.2019): 528,- €
1-day-ticket: 299,- €
Conference fee includes the lectures, workshops, lunch and coffee breaks during the lectures

Gala-Dinner and Meeting-Friends-Party: 59,- €

Registration:

Please use our online inscription form for the registration:

Pre- & Post-Conference-Workshops

Pre-Conference

13.11. - 14.11.2019
Kenneth Lossing DO, FAAO (USA)
The Cranial Approach of Dr. Beryl Arbuckle
Course fee: 310,- €

Post-Conference

18.11. - 19.11.2019
Robert Paul Lee DO, FAAO, FCA (USA)
The Intelligence of the Tide
Course fee: 310,- €

18.11. - 19.11.2019
Trauma, Emotions, bifocal Integration® and Osteopathy
Course fee: 310,- €

The following applies to all courses:

If the minimum number of 18 participants is not reached, the OSD reserves the right to cancel the course at least 4 weeks in advance. In this case, the OSD will refund the course fees in full. In addition, further claims for reimbursement of costs by the participants, in particular based on travel and hotel costs, are excluded.

Conference Speakers

Alain Abehsera DO (FRA)
Graduate of the European School of Osteopathy in 1975 and lecturer of the same from 1974 to 1985, graduate of the Paris Medical School in 1985, thesis on the principles and history of osteopathy. Abehsera is founder and in the past President of the Israeli Osteopathic Association (1987-2000), Lecturer at the OSD and currently living in France. He deals with the subject of „osteopathic self-treatment” in the context of osteopathic research.

Alain Aubervillle DO (FRA)
Involved in founding the osteopathy schools Eurostéo and InSO-Aix-en-Provence, where he taught the visceral approach to osteopathy; teaching in schools in France for more than 15 years as well as Canada and on postgraduate courses in France, Italy and Russia. Alain Auberville has developed his embryology-based Motility concept over the last 30 years by experimenting and clinically validating his hypothesis. He now practices at Pelissanne, in the south of France.

Isabelle Becker (DEU)
Self-employed Osteopath and alternative practitioner with her own office in Bonn, Germany. She was born in France and studied osteopathy at the MTM Osteopathy-School in France. Isabelle Becker is specialized in pediatric osteopathy.

Ass. Prof. Emiliano Bruner PhD (ESP)
PhD in Animal Biology and Research Leader in Palaeoneurobiology at the National Research Center for Human Evolution, Burgos (Spain). His main research areas concern functional craniology, paleoneurology, evolutionary neuroanatomy, craniovascular morphology, digital anatomy and computed morphometrics. Bruner’s key research projects deal with the anatomy and evolution of the parietal cortex. He is also involved in cognitive studies dealing with the evolution of visuospatial functions.

Prof. Guillaume Captier MD, PhD (FRA)
Professor and PhD for anatomy and pediatric surgery. Since 2011 he is senior researcher in Personalized Medical Decisions at the University of Montpellier in France. 2012 Captier became the head of orthopedic-plastic pediatric surgery at the university hospital Montpellier.
Bruno Chikly MD, DO (USA)

Author of the book „Silent Waves-Lymphdrainage-therapy“ and of the DVDs „Dissection of the human lymphatic system“, „A Miniature Universe“ and „The brain“. Laureate of the medical faculty in Paris, member of the AAO and the I.S.L. Chikly is leading in the field of osteopathic treatment of the brain and lymphatic system.

Tajinder Deoora MSc., DO, Dip phyty (GBR)

Osteopath since 1983, specialized in pediatric treatment, Deoora has been working for over 10 years at the Osteopathic Center for Children (OCC). She is an International lecturer and director of the children’s clinic at the Osteopathie Schule Deutschland (OSD) in Hamburg. Author of the book „Healing through Cranial Osteopathy“ and co-author of „Fundamental Osteopathic Techniques“ and „Osteopathic Treatment of Children“.

Philip Eckardt MD, DO (DEU)

Osteopath since 2003. Founder and leader of the Neurolog Academy. Eckardt teaches his own concept of neuro-functional integration (NFI) and practices medicine in his own privat practices in Munich and Mürnau in Germany.

Paula Eschtruth DO, FCA (USA)

Received her DO degree from the Chicago College of Osteopathic Medicine in 1964. She has practiced in Oregon from 1965 to the present. Eschtruth teaches Dr. Fulford’s philosophy both in the US and Europe. She currently lives in Oregon with her two dogs.

Franck Garçon DO (FRA)

Studied Osteopathy at COP Marseille. Since 1999 he has been working in a practice in Gignac, since 2010, he has been teaching the tissue approach in Osteopathy in France, Switzerland and Luxembourg.
Alain Gehin DO (ESP)
Teaching all over the world and continues to teach today in Europe and Japan. His subjects taught are cranial technique, sacro-occipital technique and cervical technique on a patient in a sitting position. Gehin also teaches the tensile criteria in practical osteopathy, the clinical reading of walking and the technique of absorbing lumbar disc hernias.

Pascal Grolaux DO, MICO, MIO, MNSAO (CAN)
Specialized in neuroscience; practicing and doing research in Canada. Grolaux is practicing non-invasive vagus nerve stimulation in his daily clinic and doing research about it with Kinesis Associates Clinic, Dartmouth, and Dalhousie University, Halifax, NS (Canada).

Nicholas Handoll DO, FSCC (GBR)
Teaching cranial osteopathy internationally for over 40 years. He studied under some of the great American osteopathic physicians including Harold Magoun Snr, Rollin Becker, Allan Becker, Herb Miller, Edgar Miller, Anne Wales, Viola Frymann, Robert Fulford, John Harakal and Tom Schooley.
Handoll has published articles in various journals; his paper „The Osteopathic Management of Children with Down’s Syndrome” was published in the British Osteopathic Journal in 1988 and is now online. His book „Anatomy of Potency” was published in 2000 and has been translated into German, French and Italian. The second edition appeared in 2017. In 1993 Handoll co-founded the Sutherland Cranial College as an independent post-graduate institution in the UK for teaching the cranial concept.

Richard Holding DO (GBR)
Osteopath since 1969, he was taught by Rollin Becker, Alan Becker, Anne Wales, Robert Fulford, Tom Schooley, Edna Lay, Viola Frymann, Harold Magoun and many more. Holding works as a lecturer since 1970, e.g. for Embryology, cranial Osteopathy, Kinesiology and others. He edited the three volume work “The collected words of Dr Alan Beardall DC” (1988) and numbers of other teaching materials for cranial and other topics.
Prof. Hollis H. King DO, PhD, FAAO, FCA (USA)
Graduated from the Texas College of Osteopathic Medicine in 1983 and earned a PhD in Clinical Psychology from Louisiana State University in 1971. Dr. King is currently the Medical Director of the Osteopathic Center for Children and is one of the osteopaths “Continuing the Dream and Advancing the Dream” of Viola M. Frymann, DO, FAAO in San Diego, CA. He has conducted and published research on plagiocephaly. He is also a Professor of Family Medicine at the UCSD School of medicine, and staff physician in the OMT Service in the Center for Integrative Medicine, and the Osteopathic Center for Children. He is a past President of the American Academy of Osteopathy. He is the author of the chapter on “Osteopathy in the Cranial Field” in the past three editions of „Foundations of Osteopathic Medicine“.

Robert Paul Lee DO, FAAO, FCA (USA)
Received his DO degree from the Kansas City University of Medicine and Biosciences in 1976. He practices OMM in a private general practice in Durango, CO. Lee served on the Board of Directors of The Cranial Academy and Board of Governors of the American Academy of Osteopathy. He lectures to his colleagues in the United States, Australia, New Zealand, Europe, Asia and Canada. In 2005 Lee published a book: „Interface: Mechanisms of Spirit in Osteopathy“ in which he outlined a model explaining primary respiration in the tissues, based on principles of both spirit and matter.

Head of Osteopathy School Germany and an osteopathic teaching clinic. Own practice in Hamburg. Was taught by Alan Becker, Anne Wales, Robert Fulford, Tom Schooley, Edna Lay. Numerous articles and book publications, i.a. four - also internationally translated - textbooks for cranial osteopathy. Development of various osteopathic M.Sc. programs; trained in psychotherapy, NLP, hypnosis, trauma therapy and EMDR; Founder of Bifocal Integration, Cofounder of Breath Yoga. He teaches internationally.

Kenneth Lossing DO, FAAO (USA)
Practices Osteopathic Manipulative Medicine full time with his wife, German Osteopath Margret Klein. In his spare time he teaches OMM for the American Academy of Osteopathy and Osteopathic schools around the world. Lossing brings a broad teaching background, having taught well over 100 courses over a 20 year period. He is a Past President of the American Academy of Osteopathy.
Prof. Gerald H. Pollack PhD (USA)

Professor of Bioengineering at the University of Washington. He is also Founding Editor-in-Chief of the journal „WATER“, convener of the Annual Conference on the Physics, Chemistry and Biology of Water, and Executive Director of the Institute for Venture Science. He received numerous prices and titles for his broad ranged researches and theories.

Prof. Joan Richtsmeier PhD (USA)

Distinguished Professor at the Pennsylvania State University, where she works with students, postdocs, and colleagues to understand the genetic and developmental basis for craniofacial genesis and dysgenesis during ontogenetic and evolutionary time. Richtsmeier serves on the Board of Directors of the Federation of American Societies for Experimental Biology (FASEB) and the Program Committee of the American Association of Anatomists. Also she has served as Vice President and President of the Society for Craniofacial Genetics and Developmental Biology and on the Executive Committee of the American Association of Physical Anthropologists.

Margaret Sorrel DO, FCA (USA)

For over 40 years practicing Osteopathic Manipulative Medicine and addressing the needs of children with chronic illnesses and/or developmental disabilities. Her work has been enhanced by the ground-breaking contributions of Charlotte Weaver DO (1884-1964), which, added to those of Will Sutherland DO, make a more complete cranial concept. Her book “Charlotte Weaver, Pioneer in Cranial Osteopathy” was published by The Cranial Academy in 2010 and has been translated into German and Japanese. She practices in California, USA.

Edward G. Stiles MD, DO (USA)

Graduated in 1965 from the Kirksville College of Osteopathic Medicine, and interned at Waterville Osteopathic Hospital (Maine) from 1965 to 1966. While in Kirksville he was mentored by George Andrew Laughlin, D.O., grandson of A.T. Still, the founder of Osteopathy. Later in Massachusetts he was mentored by and took over the practice from nationally honored physician Perrin T. Wilson, one of the founding members of the American Academy of Osteopathy. In 1970 he was one of the original six physicians to be included in the first Muscle Energy tutorials conducted by Fred L. Mitchell. Since 1970 Dr. Stiles has taught internationally and is recognized as a leader in the field of osteopathic manipulative medicine education.
Prof. Frank Willard PhD, DO (Hons) (USA)

Neuroanatomist, chair of anatomy at the university in New England - College of Osteopathic Medicine. Currently the most acclaimed international speaker and author on the interconnection of up-to-date scientific findings in neuroendocrinology, immunology, anatomy and embryology with osteopathic teachings. Willard is specialized in pain mechanisms.

Nicholas Woodhead DO (GBR)

Nick Woodhead qualified at the British School of Osteopathy in 1977 and has been in private osteopathic practice since then, predominantly utilising the involuntary mechanism approach, having been privileged to have received instruction from several members of the group of teachers originally established by Dr. Sutherland both in the UK and USA, including Rollin Becker, Edna Lay and Robert Fulford. He is an international lecturer.
In 1999, the Osteopathic School of Germany (Osteopathie Schule Deutschland – OSD) was founded by Torsten Liem DO in Hamburg. The OSD aims to offer training and advanced education in osteopathy and all related subjects focusing on high academic and didactic standards in step with actual practical training. Furthermore, the OSD is involved in advancing the development of osteopathy through research, publications and clinical networks such as the Institute of Integrative Morphology (IIM), the Academy of Paediatric Osteopathy and the Academy of Sports Osteopathy.

We are happy to give advice anytime!
